

# PARIS 2024 DECLARATION FOR NOCs AND NPCs

---

Paris has put athletes at the heart of its project and has drawn on both the Olympic values and the Olympic Agenda 2020 recommendations to develop a compelling offer. We promise spectacular Games, that will deliver both passion and purpose, all based on the concept of sharing.

Paris 2024 is therefore deeply committed to working with National Olympic Committees (NOCs), National Paralympic Committees (NPCs) and International Federations (IFs) in true partnership to provide an outstanding Olympic and Paralympic experience in the City of Light. For Paris 2024, it is critical to continue building this project together, by sharing our common experiences and best practices.

Our Declaration is a commitment to focus on the athlete experience in order to make Paris 2024 the best partner possible for NOCs and NPCs.

Drawing from our centuries-old tradition of welcoming the world in the City of Light, Paris 2024 will embrace the concept of the concierge service based on a philosophy of excellence. Paris 2024 will be there to serve, to assist and to advise on every detail of your journey, from 2017 and throughout every stage of the Games cycle.

The third volume of the Candidature File will detail the key pledges that Paris 2024 will make in order to look after your needs during the seven-year Games journey – an outstanding service approach to ensure comfort, convenience and the best environment for you.

Paris 2024 will be Games alive with passion and purpose. They will be built with you, for you, and shared with the world.
